The Problem

Time, money and fuel is wasted finding parking spots, paying, and understanding restrictions for parking.

Lack of efficiency in enforcing regulations and managing in-flow/or out-flow of traffic at lots/garages.

Average Time

3.6B
Hours/Year

Wasted searching for a Parking Spot*

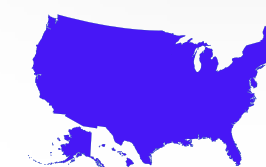

Average Cost

1.7B
Gallons of Fuel

Wasted while looking for parking*

US \$ Cost

\$72.2B

 mchuffle OP · 2 mo. ago

I have a C pass and it blows my mind any times there is a sporting event (Football in the fall and Bball in the spring) they shut down majority of C parking. Every fall i've had to plan my fridays accordingly because it's damn near impossible to find a spot at the corec lot. Where the hell are we supposed to park?

Will parking improve?

Question ?

This is my first year with a CG pass and this morning I spent 30 minutes in the northwestern parking garage looking for a spot and I was late to class. I wish I was kidding. I'm wondering from others people's previous experiences if the parking improves as the semester goes on, kind of how classes get emptier and emptier as the semester continues. Does anyone know? Or will it be a shit show all year?

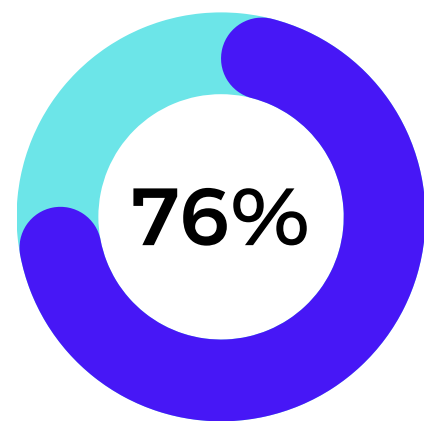

We decided to dive in.

This is what we found from our Primary Research*

Problem

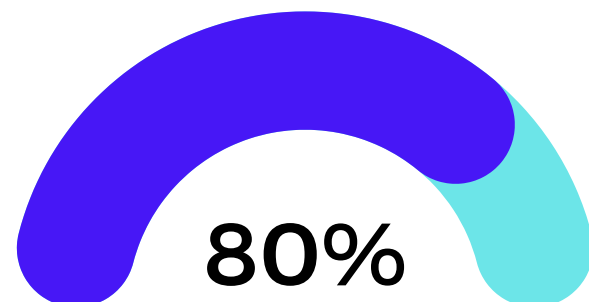

faced a problem in finding open parking spots on campus.

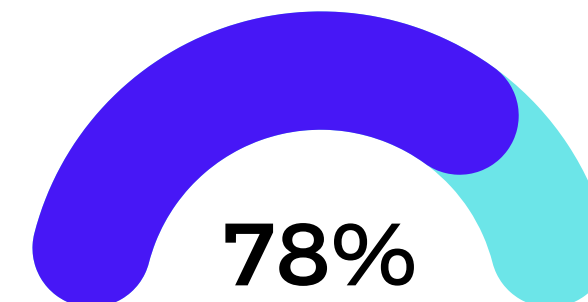

35%

did not know where they could park with their permit.

Problem Monetization

would use a service that addressed the problems.

would pay \$1 - \$3 to use such a service.

Our Vision

At the heart of our vision is not just about saving time, and money or our responsibility to sustainability by cutting down emissions, it's about something bigger:

Pioneering the next wave of urban livability for a smarter, more efficient future.

Focus Points

A solution to
the common
customer pain
points.

Parking Availability

Real-Time data on parking space occupancy

Parking Management

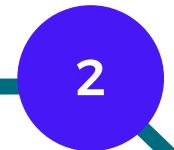

Optimize use of parking spaces to ↑ revenue

Parking Regulations

Increase compliance through detection

Parking Payments

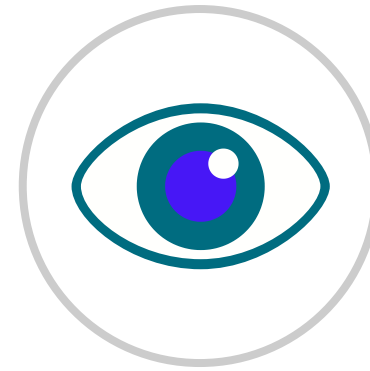

Enhancing garages using mobile payments
